PROFESSIONAL SUMMARY

React Native Developer with more than 3 years of experience building scalable mobile applications for Android and iOS platforms. Experienced in developing high performance cross platform applications using React Native, Redux Toolkit, REST API integration, and Firebase Console services. Skilled in building reusable UI components, optimizing application performance, implementing secure API communication, and collaborating with cross functional teams to deliver production ready mobile applications.

CORE COMPETENCIES

- **Mobile App Development:** Cross-platform mobile app development using React Native for Android & iOS with scalable architecture.
- **State Management:** Efficient handling of application state using Redux, Redux Toolkit, and Context API.
- **UI Development:** Building responsive and modern user interfaces using HTML5, CSS3, Bootstrap, and Tailwind CSS.
- **Performance Optimization:** Enhancing app performance using React.memo, useMemo, lazy loading, and optimized rendering techniques.
- **AI Integration:** OpenAI API, AI-powered features, real-time streaming with SSE, prompt engineering.
- **Offline Support & Monitoring:** Implementing offline functionality with AsyncStorage, Redux Persist, NetInfo, and monitoring via Firebase Crashlytics and Sentry.
- **Agile Practices:** Sprint planning, backlog refinement, cross-functional collaboration, client communication.
- **Version Control & Collaboration:** Using Git, GitHub, and GitLab for code management, collaboration, and version tracking.

TECHNICAL EXPERTISE

Mobile Development	React Native (Android & iOS), Cross Platform Mobile Development
Programming	JavaScript (ES6+), TypeScript
API Integration	REST APIs, Axios, Fetch, GraphQL
Monitoring	Firebase Crashlytics, Sentry
Navigation & Forms	React Navigation, Formik, Yup
UI Development	HTML5, CSS3, Bootstrap, Tailwind CSS
Performance Optimization	React.memo, useMemo, Lazy Loading,Code Spliting
Offline Support	AsyncStorage, Redux Persist, NetInfo
CI/CD And Tools	Fastlane, GitHub Actions, Android Studio, Xcode, VS Code, Postman,JIRA

PROFESSIONAL EXPERIENCE

React Native Developer

SheThink Pvt. Ltd. | Indore, India | March 2023 - Present (3 Years)

- Developed and maintained **cross-platform mobile applications (Android & iOS)** using React Native with scalable architecture.
- Integrated **REST APIs (Axios, Fetch)** and managed application state using Redux & Redux Toolkit.
- Built **reusable UI components** and optimized performance using memoization and efficient rendering techniques.
- Implemented **security, offline support, and monitoring**, including SSL pinning, AsyncStorage, and Firebase Crashlytics.

Frontend Developer Intern

CodersId | Indore, India | December 2022 - March 2023(4 Months)

- Completed intensive training in Ract.js, Redux Toolkit, and TypeScript, building multiple production-ready applications including a blog platform and review system
- Implemented authentication systems, CRUD operations, and responsive UI components using React Hooks, Redux state management, and RESTful API integration
- Collaborated using Git/GitHub workflows, participated in code reviews, and followed Agile development practices in a remote team environment

KEY PROJECTS

Nomou – Business Management & Digital Billing Application (KSA & BH)

- Developed core features for **customer management, billing, invoicing, and payment tracking** for SMEs and business users.
- Integrated **banking APIs and financial transaction services** to enable secure and seamless payments.
- Applied **mobile security practices** ProGuard obfuscation, SSL certificate pinning, and jailbreak detection.
- Optimized application performance using **efficient state management (Redux Toolkit)** and improved UI rendering.
- Designed and enhanced **responsive UI components** across multiple screens for better user experience.
- **Technologies:** React Native, TypeScript, Redux Toolkit, Firebase Console, REST APIs, Axios, Deep Linking

AmanahRaya & AmanahRaya Agent – Trustee Service Applications

- Developed **two mobile applications** for customers and service agents for managing trust, will, and estate services.
- Built features for **secure data handling, real-time updates, and user interaction workflows**.
- Implemented **WebSocket-based real-time communication** for faster data synchronization.
- Integrated **Google Maps** for location-based functionalities and service tracking.
- Collaborated on scalable architecture using **TypeScript and Firebase backend services**.
- **Technologies:** React Native, TypeScript, Firebase, WebSockets, Google Maps

Bandhify – Dairy Product Ordering Platform

- Developed a **customer-facing mobile application and admin portal** for ordering dairy products from local vendors.
- Led development of the **end-to-end application**, managing both frontend architecture and feature implementation.
- Integrated **Google APIs (Geocoding, Maps, Distance Matrix)** for location tracking, delivery estimation, and route optimization.
- Implemented **GraphQL APIs using Apollo Client** for efficient data fetching and state management.
- Designed responsive and scalable **UI components using Tailwind CSS and React Native**.
- Ensured smooth user experience through **optimized performance and seamless navigation** across the app.
- **Technologies:** React.js, React Native, TypeScript, Tailwind CSS, GraphQL (Apollo Client), Google APIs

Cityfurnish – Furniture & Appliance Rental Platform

- Contributed to development of a **rental-based mobile application** for furniture and appliances with flexible subscription plans.
- Integrated multiple third-party SDKs including **Razor pay (payments), AppsFlyer (analytics), CleverTap (engagement), and Branch (deep linking)**.
- Implemented **KYC verification using HyperKYC SDK** and social integrations via Facebook SDK.
- Worked with **Firebase services** for backend support, notifications, and real-time data handling.
- Integrated **Google Maps** for location-based services and delivery tracking.
- Focused on enhancing **user experience, performance optimization, and seamless feature integration**.
- **Technologies:** React Native, TypeScript, Firebase, WebSockets, Razorpay SDK.

EDUCATION

Bachelor of Computer Science ,B.Sc. (HONS)

Christian Eminent Academy, Indore

Master of Computer Applications,(MCA)

IPS Academy, Indore

CERTIFICATIONS & TRAINING

- React JS Certification from Coder's Id ,Indore.
- Prompt Engineering Certification (Udemy)
- AI Courses (Udemy)

AWARDS & ACHIEVEMENTS

- Alpha Player Award – Recognized for outstanding performance and high client satisfaction.
